

On Monday March 24, 2014 Chief Carpio, Assistant Chief Sutton, Rescue Captain Blazek, and President Lamphier traveled to sunny Florida to preform the post paint inspection on the new ambulance. While in Florida, the members inspected the ambulance as well as the local night life. The new ambulance is being built by Marque on a Ford F-450 4x4. They found a few minor flaws in the paint and and light package. The unit still needs to be sent to Virgina to be striped and lettered. As far as the night life, well that is for another story.
