

New Ambulance Comes Home

Thursday, May 29 2014 17:15 -

On May 28, 2014 President Lamphier, Assistant Chief Sutton, and Rescue Captain Blazek conducted the final inspection of Ambulance 79. After a long process the ambulance committee accepted the delivery of our new ambulance. Ambulance 79 is a custom body built by Marque Ambulance and mounted on a 2012 Ford F450 4x4. There are still some equipment to be mounted, radios to be installed, and drivers training to be conducted before it will be on the streets running calls.
